

## The escape hole of the great library

I am Addison, I have long ginger hair, my favourite colour is yellow. People say I have a bubbly personality. I also have a friend named Charlie she has a childish personality.

Today me and my adventure seeking friend Charlie were trying to seek for another quest. Charlie urged to go to the library, so she ventured and blurted "Lets go to the library!" "Alright since there is nothing else to do" I groaned.

After a long trek we finally made it to the library of books. But as we carefully read the title we realized that there was a tiny golden key hidden. We thought nothing of it for the time being but we hadn't finished the investigation about the hidden key.

Charlie and I went inside the library although I wasn't in the mood of reading. Charlie picked up a book that was all about the history of the neverending story. While Charlie was reading her story that doesn't end. She cautiously turned to the next page. Then Charlie discovered something fascinating.

She saw a tiny sparkling gem in the corner of her book. Charlie warily layed her small pale finger on the shiny purple little gem. With a great stretch she gripped my fragile arm and we vanished with the blink of an eye.

## The dragon tale

One dark and foggy night a boy called Charlie was doing his homework peacefully until Charlie heard a big thud on the 1008. He moved closer to his window he cautiously opened his window then he saw a tail he slammed his window shut and step by step Charlie moved back from the window. Suddenly the thing came down. It WAS A DRAGON, the dragon looked hungry so I went down stairs and grabbed some food I ran back UP stairs and gave him the food in general name him Elliot. The diary of a girl who's hair changes color because of her emotions.

Dear diary,

Monday 16<sup>th</sup> of March 2020  
9:00 AM

This is my first ever time writing in this diary, and I'm so excited! I'm writing in my diary in the most strangest place ever to write in a diary. Can you guess where? ... If you guessed the doctors then you're correct. If you're wondering "Oh why are you in a doctors?" Well let me tell you.

Dear Diary,

Saturday 17<sup>th</sup> of March 2016  
6:21 AM

It is my birthday and I just woke up to my mom saying my name repeatedly "Weather, Weather, Weather!" I was very confused. Why was she saying my name repeatedly like... Why was she shouting my name repeatedly? "What is it?" I said still half asleep. I still have a lot of questions to be answered. Was my mom angry because she saw me sneak a present from my present pile last? What emotions was she feeling? My mom then said the most weirdest thing ever. She said, "You're black... It's black!" I thought she just saying that to get me out of bed so I got up (I didn't want to be late). I looked in the mirror just to be sure and when I checked she was right my hair was black! I went down stairs to look at my presents. When I saw 1 presents I was in shock. I had soooooo many presents. "AHHH!" My mom screamed. "What is it now?" I said sighing. "You're black... It's now white!" My mom screamed. The whole Neigh neighborhood probably heard her. I rushed upstairs to the mirror and when I got there I saw that she was right. I heard my mom opening the door. "Mom where are you going?" I asked. I heard my mom then close the door and say "Get ready we're going to the doctors." I went to get dressed and that we were off to the doctors.

Lagan my name is Jan I work for  
the news I am a reporter.  
The reason that I am here  
is to tell you that there  
is breaking news that there

plans are being to spin for  
a fashion show.

It was amazing since but  
some thing did not feel right  
Then suddenly the plane started  
to smoke and everyone was screaming  
and scared.

Then the plane started  
to wobble side to side  
and then suddenly the plane  
started to go down and  
down and then it hit the  
ground.

Then the people went to look  
for food and they found a  
kacchute tree they shook the  
tree and a kacchute fell and  
crack open and a baby master  
the on they had to go is  
to the water and in the  
water there was a mummy  
master and it got one of  
them and it took it to  
an big scary under ground  
base.

It was for people so we  
can believe it is very scary  
down here.

It is very tired and scaly,  
I am freaked out but I

## The day I met my nightmares

One dark and stormy night, except it wasn't stormy. A regular innocent old man named John was walking alone at night through the eerie forest. He came across a strange snack bar. He cautiously moved closer step by step. He saw a figure in the distance. "Hello?" I move two steps back after I saw a round red nose. I closed my eyes and took a deep breath. "Huhh... Haaa." I look up and see... A... A... CLOWN! He jumped on top of me. I realise something he is not real. I pull off the mask it wouldn't budge. I run and scream for help! I was cornered. I felt something or someone pulling on my arm. The door opened behind me and I got pulled in. I saw nothing but darkness. I felt around and found a string. It had a plastic ball on the bottom. I pulled the random string and lights turned on. I walked along an interesting corridor and lights start flickering. I hear voices inside or outside my head. I just don't know anymore. I look around my surroundings and see a figure sprint past a room near by. On the floor I see my Night... m... m... mare. It's an arm that chases anyone. It's creepier than it sounds. I run away as fast I could. Stop. And pant like a dog then I found myself in the hypno room you can't get out of. After a good ten minutes of staring into my palms I realised night just look. I end up in an old house. I decide to start walking. I stopped for a minute and could hear foot steps. I come across a door with a box next to it. I opened the box and saw a piece of

paper. It said nothing on it, nothing at all. I saw some sort of pen. It had fingers on it and they were moving. On the tip of the pen I saw a button. I did not know what it was going to do but I just passed it. It showed a blue light. I held it above the piece of paper and words appeared. It said...

I will get you.

I took a deep breath and opened the door. There stood my childhood nightmare.

Dear diary My Dream

Once upon a time I was in a disgusting River with my giant fish haha I got my fish to munch all of the fish. The river had dead mice, fish, sharks, moldy rappers, bottles, paper, and suddenly a golden rocket flew down and it was shark boy. Then I took my fish out the sea. Then shark boy took me and my fish back home and then I put my fish back into his boring giant tank then we went to sleep. "yawn" the next again morning I woke up went in the bath/shower and then got ready and then my door went ding dong and it was shark boy asking if he can have tea at my house and then his mum said I thought you are going to a party and I said "WHAT DID YOU SAY" get out right now. So he said sorry and then I said it is fine so we had dinner then he went home and I went to bed. THE END

Bradley there was a group of 4 people 2 girls 2 boys  
walking through the woods. there was  
a headless man walking through but he was  
holding something and it looks like a head  
Haddon it looks like his head. He looks at us  
so we run through the woods and found  
a big tall house. we were all fighting or  
how sad not on the door. the youngest one  
said to the oldest one to not so without  
hesitation he not on the door no one  
answered. The door just swung open  
so they walk in but the little one  
did not want to go in. But he got pull  
in and they found a splash+ mirror and a  
sofa and we found a daisy

The day I found out my dad is  
One mysterious month. The first  
day of the month my daddy went  
to the Army and my Mummy  
Went to space so I had to live  
with my boring granny and grandad.  
My granny and grandad lived in  
the middle of nowhere because  
when granny was younger she was  
bullied for having a green foot.  
My mum says she is a action  
but I had never seen her on telly.

My dad is never around  
any more and I don't even  
know if he lives which is any  
more. My granny quietly shouted me  
and said we will have  
green gups for tea the grandad  
said she never took her pills.  
and we are having Mac and cheese  
Dinner was ready and my grand-  
parent's stuffed the dinner in two  
secs. Then it all turned weird  
they spoke a different language  
and they went all red I asked  
what they were saying and  
they said they were talking about  
there Dessert apparently. It was  
nine thirty and I need to  
go to bed then suddenly I  
heard gurgling and I said it's  
probably granny brushing her saws  
Teeth then I heard a alien

I saw a green glowing thing in  
Caleb's house I thought it was a  
dream So I went back to sleep.  
It was the 31st of March and  
it was all starting to turn  
weird I can't understand my  
grandparents Caleb wasn't a person  
and my grandad is in hospital.  
I was lying in bed and my granny  
suddenly came up stairs and said grandad  
died I was crying for hours till  
I heard a strange noise my mum  
she is here I rapidly ran down  
stairs till I saw my mum and  
granny hugging you probably thinking  
that's not weird but there green  
and have got antlers they sadly  
looked at me like there disappointed  
in there selves they sat me  
down.

They explained that these aliens  
and I was shocked I could  
not sleep for days weeks years  
I was petrified. It came to  
the day of my grandad's funeral  
and my dad came he only  
had one arm he came just  
to pick me up and take home  
to humans I said my goodbyes  
and left. It was my first  
night at dad's house so I just went  
straight to sleep but suddenly  
my hands started to turn.

Noise for some reason it's  
probably the TV. I finally  
woke up. And told my granny  
that the fish and water wasn't  
in the tank anymore she said  
that the fish died and the  
tank started to rot so she threw  
it out. It was nine am so  
I was hungry I asked  
granny what's for breakfast and  
she says fish. Blanked says we  
are having coco pops and she  
never took her pills. It's  
later in the afternoon so  
I went outside and Magiel's  
a house is in front of me and  
a boy comes out to play.  
I asked if he wants to  
play and he says ye sure.  
It's tea time and he asked  
if I wanted to have tea  
with him. I ran over and  
asked Blanked if I could have  
dinner at Caleb's and granny  
asked who is that we live  
next to. No one.

Granny look outside and says oh  
them ye sure they're really nice.  
I had dinner with Caleb  
then I had to go to bed.  
I said goodbye went home and  
got settled in to bed then
