

*Where do I start ? Well I loved how I started in the Saturday class by managing to be part of Mr Mump's Surprise :) that was a brilliant experience. I went on to join an amateur theatre company and have been a member of it since 2004. The drama studio really helped me with my confidence and made my dreams come true because I always wanted to sing and dance and for that time on stage I loved every second of it :) I have some of the shows on tape and have watched them back a few times just to remember what we were all like and how much we all enjoyed being part of The Drama Studio. Julie, you worked so hard every term to bring the show together but you also helped us by giving us the space to create are own show! Thank you for letting me be part of it.*
