

Using Music In The Classroom - Your Playlist

Having a Music Playlist to hand on your laptop/ipad is such a great support for teachers. Music can transform the atmosphere in your classroom as it instantly makes an emotional connection with your students.

Most Popular Uses Of Music - Behind physical activities such as drama and movement, during quiet, focused activities like writing, problem-solving, and group work, background for storytelling and presenting written work to classmates.

We use the following website for free, Royalty Free Music and Sound Effects.

<https://freesfx.co.uk/>

There is a search function for Sound Effects but not the same for Music.

However Music is divided into sections, according to type.

Below you will see suggested tracks to match a particular mood or activity.

These are only a few on the site but we've chosen the ones we most frequently use.
